Check the weather forecast and temperatures for the locations here: [https://www.accuweather.com/en/cy/ayia-napa/1-122485\\_1\\_al/weather-forecast/1-122485\\_1\\_al](https://www.accuweather.com/en/cy/ayia-napa/1-122485_1_al/weather-forecast/1-122485_1_al) so you can bring appropriate clothing. It's going to be summer soon, so do bring your swimsuits so you can enjoy the beach on your days off

## Electricity

The supply in Cyprus is 240 volts, a.c. 50Hz. Sockets are usually 13 amp, square-pin in most buildings. More than one low current rating appliance may be operated from the same supply point, by using an adaptor (i.e. radios, electric clocks etc.). Bring suitable adaptors. The use of adaptors for operating high current rating appliances is not recommended (i.e. electric heaters, toasters, irons etc.).

## Currency

Cyprus uses the Euro but you can find places and banks almost everywhere for exchange. If you want to change at the airport you can but generally it is not the best rate and you will be charged a fee. Most establishments accept credit/debit cards (Its is recommended).
